

**Craig Martin**  
Cook Compression

Craig Martin acts as Applications Engineering Manager for Cook Compression's operations in the Americas. Craig oversees design, drafting, troubleshooting and product support duties for Cook's products in this region. Craig has been with Cook Compression for 11 years, located at their facility in Jeffersonville, IN. He holds a degree in Chemical Engineering from the University of Kentucky and his expertise is in sealing products (piston rings, rod packing) for reciprocating compressors.
