

Jonathan Bygrave
Hanwha Techwin

Mr. Bygrave is the Executive Chief Engineer for Integrally Geared Compressors and is based in Hanwha Techwin's Design and Development Center located in Houston, TX.

Mr. Bygrave holds a BSc (Hons.) in Aeronautical Engineering from the University of Manchester, U.K. His engineering experience over the last 30 years is related mainly to centrifugal compressors, their design, application, development, operation, safety and reliability, but he has also worked on the design of gas turbines and their auxiliary systems.
